

Ideal & Highly Accurate Instrument for Testing of
Drinking Water & Sewage Disposal Water

DIGITAL TURBIDITY METER

For Higher Measurement of Suspension
in Water upto 1000JTU

For Low Range Suspension only
upto 100 NTU

Salient Features

3½ digit LED Display

Reliable & Accurate Results.

Sewage & Drinking Water Testing

Measurement upto 1000JTU

MAX ELECTRONICS (INDIA)

We set standards for others to follow

DIGITAL TURBIDITY / NEPHELOMETER

Model	ME 988 N Digital Turbidity Meter	ME 989 N Digital Nephelometer	ME 990 N Analog Nephelometer
Range	0 to 200 JTU 0 to 1000 JTU 2 Ranges	0 to 20.00 NTU 0 to 200.0 NTU 2 Ranges	0 to 4 NTU 0 to 40 NTU 0 to 10 NTU 0 to 100 NTU 4 Ranges
Resolution	1 JTU	0.01 & .1 NTU	0.1 NTU
Accuracy	± 3 % FS± 1 digit	± 2 % FS± 1 digit	± 3 % FS
Sample System	30 mm clear glass tube	30 mm clear glass tube	30 mm clear glass tube
Light Source	6.8V, Tungston Lamp	6.8V, Tungston Lamp	6.8V, Tungston Lamp
Detector	Photodiode	Photodiode	Photodiode
Display	3½ digit LED display	3½ digit LED display	125x100 mm rect. meter
Power	220V± 10% AC 50Hz	220V± 10% AC 50Hz	220V± 10% AC 50Hz
Size (LXBXH)	305x305x165mm	305x305x165mm	305x305x165mm
Weight	4 kg (approx.)	4 kg (approx.)	4 kg (approx.)
Accessories	Test Tube Set, Operation Manual & Dust Cover		
Other Models	Analog Nephelometer Battery cum Mains Operated also Available		

Specification's & designed subject to change due to continues development.

Product Range

*Laminar Air Flow Cabinets (Horizontal & Vertical) * Flame Photo Meters * Digital Spectro Photo Meter
 *Microprocessor pH Meter *Lab System Analyser *Water & Soil Analysis Kit *Digital Photo Colorimeters *Filter Photo Colorimeters *Digital pH Meters *Turbidity Meter * Nephelo Meter *Auto Karl Fischer Titrimeter *Digital D.O. Meter
 *Digital Conductivity Meter * Digital TDS Meter *Temperature Indicator *Digital Telethermometer, Digital Colony Counter *Digital Potentio Meter *Digital pH Cond. cum Temperature Meter.
